

Steel Height Ergonomic Worker Chairs 13 In. to 26 In. 220 Lb. Capacity Black

MODEL CPRO-200

Ergonomic Solutions / Ergonomic Worker Seats

PRODUCT OVERVIEW

The Ergonomic worker seat allows individuals to go from a low crouch position to a standing position. The seat height can be adjusted by moving the seat and hooking in to the horizontal bars located on the chair frame. The unit has four rubber "shocks" under the seat base that allow the seat to tilt forward, left, and right so it can accommodate your body movements. The front tilted position of the seat helps the user maintain the natural posture position of the spine.

KEY FEATURES

- Go from a low crouch position to a standing position
- Move the seat and hook it in to the horizontal bars
- Four rubber "shocks" under the seat mimic body movements
- Maintain natural posture position of the spine
