Steel Drop Bottom Hopper 1 Cubic Yard 3,000 Lb. Capacity Blue

MODEL DBH-100-3

Fork Truck Attachments / Drop Bottom Hopper

PRODUCT OVERVIEW

A hopper with a bottom dump feature is a unique design not typical to classic hoppers. With a bottom dump hopper there is limited wasted space. Unlike standard hoppers that have angled sides to encourage the product to flow out, the bottom dump hopper utilizes all of the space in the hopper. There are built-in fork pockets to pick up hopper from the top, allowing the bottom to open and the hopper to be quickly emptied. An attached cable lets the user continue to be seated while opening the bottom hatch, minimizing down time and the need for additional personnel. Blue powder coat finish.

KEY FEATURES

- Open top, no lid design
- Single bottom door
- Safety restraint secures hopper to fork truck
- 8" wide fork pockets
