Steel Tread Plate Platform Truck 30 In. x 48 In. 2,000 Lb. Capacity Black

MODEL ECSPT-3048-TP

Industrial Carts & Dollies / Steel Platform Truck (Smooth or Treadplate)

PRODUCT OVERVIEW

A steel tread plate on a platform truck is an upgrade to an old classic. A textured platform design gives the products more security during transit. With this added surface quality, the amount of jostling and movement of products on the platform is limited. The steel handle includes a middle and upper tier, protecting the user from any falling or sliding materials. Powder coated finish provides added toughness.

KEY FEATURES

- Tread-plate platform surface
- Open layout with three unprotected sides
- Mold on rubber (6x2) casters (2 swivel and 2 rigid)
- Hardware included, assembly required

CORE PRODUCT DATA

ASSEMBLED WEIGHT	95 lbs
