

Galvanized Steel Curved Guard Rail 133 In. Length Gray

MODEL GR-H2R-CRV-BO-12-HDG

Protective Barriers / Highway Guard Rail Systems

PRODUCT OVERVIEW

Protecting equipment, inventory, and most importantly individuals from damage or injury is always a concern. But, with a structurally strong steel guard rail those worries can be eased. A curved design allows the rail to be placed in a variety of areas. This rail is double ribbed for impact resistance both indoors and out. A bolt-on style rail design allows the user to fasten the rails securely in place. Additional posts are available and sold separately. If adding a rail to an existing rail and post section, only a single post is needed.

KEY FEATURES

- Economical system can be utilized indoors or outdoors
- 2 Ribbed design for secure protection
- Hot dipped galvanized for a rugged long lasting finish
- Steel construction offers strong reliable protection
