Steel Infrared Heater 4 Panel 230 Volt 1 Phase Black/Silver

MODEL HEAT-4P-230-1

Facilities Maintenance / Infrared Heaters

PRODUCT OVERVIEW

An infrared heater provides beneficial warmth to a variety of industrial areas. A simple to use control panel allows the function and heat settings to be utilized in the best possible way for maximum efficiency. An adjustable heater arm gives the user the ability to maneuver the heating elements into a position that best fits the type of surface that is being heated. Unit includes casters to easily maneuver the unit to and around the work area. A robust structural construction endures work place conditions that are continually changing.

KEY FEATURES

- Strong assembly for long term daily use
- Adjustable design for a variety of workplaces
- Easily transferred to other areas if the facility
- Design uses minimal space during storage
