Steel Industrial Mega Broom 27 In. x 60 In. 11 Brush Rows Black

MODEL IMB-2760-11

Fork Truck Attachments / Industrial Mega Brooms

PRODUCT OVERVIEW

Whether it's gathering debris in parking lots or cleaning up warehouse floors, the industrial mega broom is here for the job! With durably firm bristles this broom can move an array of items with ease. Often times the construction of standard brooms can become brittle and break, but that's not the case with the mega broom. Each mega broom is built of steel for that long lasting strength and resilience. It is recommended to rotate the brush strips from front to back after every four hours of use. When not in use it is best to store the broom upside down or where pressure is evenly distributed across all bristle strips.

KEY FEATURES

- May be used to sweep in forward or backward motion
- 11 rows of bristles
- Compatible with forklifts and skid steers
- Bristles strips may be replaced
