Steel 5 Gallon Pail Carousel Rack, 10 Pails 350 lbs. Capacity Per Shelf Yellow

MODEL PAIL-T2-CAR-10

Drum Handling Equipment / Pail Carousel Racks

PRODUCT OVERVIEW

A pail carousel rack is a quick way to transfer loaded and unloaded pails. Each bay is a perfect fit for a 5 gallon pail, while an included safety chain gives an extra level of security. The carousel design enables circular movement of each tier, allowing the user to maintain their position instead of moving to each individual pail bay. The rack is constructed of 1/4" thick powder coated steel. Legs must be lagged to the floor.

KEY FEATURES

- Two tier design
- Free standing, stationary unit
- 10 Pail bays
- 350 Lb. capacity per tier
