Steel Constructed Pail Lid Closing Press Machine 2-7 Gallon 250 Lb. Capacity Blue / Yellow

MODEL PLC-P-FM

Drum Handling Equipment / Pail Lid Closing Press

PRODUCT OVERVIEW

This plastic pail lid closing press quickly and easily secures a cover onto a plastic pail. The lid closer allows for easily pressing lids on plastic pails in a single motion. The 39" long handle provides a 14:1 advantage, where 50 lbs. on handle applies 700 lbs. on the pail. Adjustable height table allows for use with different sized pails. Compression plate diameter is 16" and is fitted with an adjustable burp plunger. Base frame is pre drilled for lagging to the floor (hardware not included). Not for use with UN-rated pails for hazardous material shipping.

KEY FEATURES

- Works with pails 6" to 22" tall
- Two-handle design is easy to operate
- Long handles provide leverage reducing effort necessary to secure lids to pails
- Steel construction can handle rugged use
