

Low Density Polyethylene Over Pack Drum Containment Cover Orange

MODEL SCC-65-CVR-OR

Drum Handling Equipment / Overpack Containers

PRODUCT OVERVIEW

The drum containment cover is a great addition to the drum container. The unit is constructed of low density polyethylene for strength and durability. The bead blasted finish provides a more appealing surface texture and appearance. To attach, simply place cover onto the drum containment and twist until latched.

KEY FEATURES

- Drum container is designed to contain leaks and spills
- Great for 55 gallon steel or plastic drums during transportation and storage
- Made from a sturdy construction for longtime use
- Simple attachment for immediate use
