Steel Heavy Duty V Bottom Stackable Material Cart 36 In. x 54 In. x 40 In. 5000 Lb. Capacity Blue

MODEL SPC-3654-VB

Industrial Carts & Dollies / Heavy Duty Stackable Material Carts

PRODUCT OVERVIEW

A stackable material V-bottom cart provides the same great benefit of a standard material cart, while allowing multiple units to be stacked for a smaller warehouse footprint. A steel platform and structure enables a larger weight capacity of items to be maneuvered in a more efficient time-frame. The V shaped bottom design is perfect for pipe and other cylinder shaped items. The surface is smooth to diminish the chances of abrasion during any possible jostling. The units are stacked together using a simple four corner post design for a more even weight distribution.

KEY FEATURES

- V shape design helps keep items in central area
- Empty carts may be stacked
- Raised sides provide stability of large loads
- Casters allow for easy movement between areas
