Steel Single Rail Chock 7-1/2 In. Width Yellow

MODEL SRC-1

Loading Dock Equipment / Universal Steel Rail Chocks

PRODUCT OVERVIEW

The single rail chock is a great addition to the rail car work environment. The powder coated steel construction is designed to sustain longevity through use in a variety of harsh environments. The bright colored design enables users to recognize the unit from both near and far. The included hardened steel spurs that are located on the bottom side of the chock, are used to maximize a positive grip.

KEY FEATURES

- Single steel rail chock fits most standard size rails for ideal operation
- Double sided flanges and steel spurs keep chocks on track to maximize a positive grip
- Features durable construction for added strength and long life
- Ideal for industrial applications where railroads are needed for optimal results
