Factory Installed Steel Sliding Span Lock Option for Curb Style 2 Aluminum Dock Boards Yellow

MODEL SSL-2

Loading Dock Equipment / Aluminum Truck Dockboards (Welded Aluminum Curbs)

PRODUCT OVERVIEW

A sliding span lock may seem small but it plays a huge role in dock safety. Dock boards can jostle and move, potentially causing the board to slip out of position. With a sliding span lock, you can secure a dock board between the dock and a trailer giving the user the trust and support needed to transfer heavy loads! This particular model is exclusively used with BTA aluminum dock boards with 2 inch high side curbs.

KEY FEATURES

- Factory installed
- Two star-knobs included for leg attachment
- Steel construction
- Powder coated yellow for clear visibility
