Ergonomic Solutions / Tilt Master & Tilt Master Straddle

PRODUCT OVERVIEW

The tilt master straddle lifts and positions filled tote boxes or baskets without the need of a fork truck or lift table using the newly designed heavy-duty tilt master. The tilter will function as transporters by moving completed products from work station to work station without waiting for a fork truck. Lift is designed to be used with virtually any kind of container or pallet. The unit is powered by a DC electric motor that includes an on-board battery charger and battery charge indicator.
