

Factory Installed Conversion Foot/Hand Pump to Rotary Air/Oil Power Unit

MODEL VCC-FP-2-AIR

Ergonomic Solutions / Options For Electric Hydraulic Equipment

Product image unavailable

PRODUCT OVERVIEW

The change from foot or hand pump to a power unit creates a more modern and efficient machine. The upgrade increases the lifting and lowering times while still maintaining the utmost safety. A powered supply allows the user to stop and start smoothly without jostling or uneasy movement.

KEY FEATURES

- Minimizes lift time
- Less manual personnel labor
- A precise lift and lower positioning
- Allows user to keep distance from unit
